We would like to invite you to submit a short abstract on your intended book chapter to be published in the above edited book. The abstract should not exceed two pages highlighting the main contributions in terms of:

1. **Domain**: specifies the real application domain and a clear statement of the investigated issue.

2. **Novelty and Contributions**: provide clear statements on the advancement of knowledge in the theory selecting some of the following relationship:
   - Introduction to development theory, economic growth, environment and human development
   - Growth, environment, economic development and human development.
   - The relationship between growth, poverty and income distribution
   - The relationship between growth, poverty and income distribution
   - Planning, markets and the role of the State
   - Income inequality
   - Environment and social economy.
   - Resources and the environment at the global level.

3. **Strategic and Policy Implications**: provide statements on the impact of the results on the public policies. Please use template of the attachment in word (template proposal chapter).

**Selection process:**

The book editorial team will conduct a quick review of the submitted abstracts in order to invite the authors of the most relevant abstracts to submit by June 10th their full chapters for processing according to the following schedule:
